Jobayer Ahmed Sajid

Junior Software Engineer | Full-Stack Developer (MERN and ASP.NET Core)

Dhaka, Bangladesh | +880 1843-278491 | sajid661aca@gmail.com

LinkedIn | GitHub | Portfolio | ZiCraft

EDUCATION

Master's in Chinese Language and Culture — University of Dhaka — In progress

BA in Chinese Language and Culture — University of Dhaka — 2021–2025

Teaching Practicum (8th semester): Built creative lesson plans and conducted classes using Grammar-Translation, Audio-Lingual, and Communicative Language Teaching methods.

PROFESSIONAL SUMMARY

Junior software engineer with practical experience building and shipping full-stack web applications in React, Next.js, Node.js, and ASP.NET Core. Shipped a live HSK learning product, led a six-person team project, and built MERN applications with authentication, real-time features, and third-party payments. Focused on maintainable code using object-oriented design, SOLID principles, REST APIs, and relational and document databases.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, C++, SQL

Frontend: React, Next.js, Redux, React Query, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, ASP.NET Core, ASP.NET Core MVC, Entity Framework Core, REST APIs, JWT, RBAC

Databases: MongoDB, MySQL, PostgreSQL, Firestore

Concepts and Tools: OOP, SOLID, Repository Pattern, Data Structures and Algorithms, Testing, Git, GitHub, Docker, Firebase Hosting, Vercel, Railway, TiDB

PROJECTS

ZiCraft — HSK Chinese Vocabulary Learning Platform | Live: zicraft.app

Next.js, React, TypeScript, Firebase (Authentication, Firestore, Hosting, Storage)

- Live freemium product covering 5,334 official 2025 HSK words across HSK 1–6, with 503 words free in HSK 1–2, flashcards, spaced repetition, mistake tracking, tone practice, stories with quizzes, and grammar learning.
- Owned product decisions, content verification, pricing, and deployment; directed and verified AI-assisted development and shipped fixes for authentication, paywall, and routing.

Fitness Studio — Fitness Tracking Application | Team of 6, about 2 months

React, Redux, Node.js, Express.js, Socket.io, JWT, MongoDB

- Led delivery using Trello and Scrum, sometimes conducting Scrum activities, with a branch-based GitHub workflow, merge-conflict resolution, and code review and testing before merging to main.
- Built real-time notifications with Socket.io and dynamic goal-setting, with JWT-secured APIs and Redux state management.

Inventory Management System | Live | Repository

C#, ASP.NET Core MVC, Entity Framework, SQL, Repository Pattern

- Built a multi-entity inventory system for products, suppliers, categories, and locations, with transaction processing.
- Applied the Repository Pattern and service layers to separate data access from business logic.

PROBLEM SOLVING AND COURSES

600+ problems solved across Codeforces, CodeChef, and LeetCode, focused on data structures, algorithms, and optimisation.

- **Codeforces:** Maximum rating 1157 — codeforces.com/profile/Sajid661 — 330+ problems on portfolio, focused on problem decomposition and algorithmic thinking.
- **CodeChef:** Maximum rating 1443 (2 Star), 22 contests, 131 problems on profile — codechef.com/users/sajid661ac
- **LeetCode:** 150+ problems on original CV, focused on Array, String, Hash Table, Depth-First Search, and Breadth-First Search — leetcode.com/u/Sajid661

Courses: CPS Academy, Job Interview Preparation (May 2025–Apr 2026); Phitron, Fundamentals of Computer Science (Apr–Dec 2024); Programming Hero, Complete Web Development, Batch 8 (Jun 2023–Mar 2024).
